

# THE PYRAMID SCHEME

OF HIDING JESUS

WRITTEN BY

# Introduction

I'm Christian Banks. I'm not some crazy good author, and honestly, I actually hate to read. I'm 15 years old, but the problem I'm writing about made me so angry that I decided to sit down and write a book. Not just any book an in-depth, credible, accurate, and heavily researched book.

In these pages, I go through religions like Mormonism, Islam, Catholicism, and Satanism, breaking the boundaries and showing how religion is used to hide disgusting crimes and abuse. As you read this, your mind will change and your eyes will be opened. I have studied the Bible for over three years, and I've spent over a year diving into all other religious texts. I've even studied some of the darkest material out there, like the Satanic Bible that promotes vengeance, or the Quran that commands violence against those who don't believe in Allah.

There are some crazy, eye-opening cases in here, all backed with structured proof—a lot of it taken directly from their own books. Buckle up. It's a crazy ride.

Welcome to the pyramid scheme of hiding Jesus...

## Chapter 1

### THE STRUCTURE OF THE SECRET

The world always thinks a pyramid scheme is just about a CEO cheating the system or scamming people for money. But in religion, it's so much more. They don't just care about your money; they care about your soul, your body, your life, and how to influence human minds.

#### **MORMONISM (LDS)**

Mormons—or as I like to call them, "door knockers"—are officially known as the Latter-Day Saints. I have always been intrigued by them, mostly because I always wondered: why don't you just believe the Bible like everyone else? They claim to have "Another Testament of Jesus Christ," but the stories of Joseph Smith finding golden plates have been debunked many times. I think they're using it as a cover-up.

Let's look at the actual research and credible sources. In 2014, the LDS church was forced to publicly release the "Gospel Topics Essays." In those official statements, they admitted that Joseph Smith married over 30 women. Some were as young as 14 (like Helen Mar Kimball), and some were even married to other living men (polyandry). Disgusting, right? But it got implemented into the church.

They also wear special garments, and when I've spoken to Mormons—even soon-to-be missionaries leaving for Mexico in a couple of weeks—they say they study the KJV Bible. But from my experience testing them, they don't know basic verses and struggle to even pronounce well-known names like Psalms. It's insane. Even me, someone who doesn't know every single verse, can at least open the Bible and reference it. Instead, they treat the Book of Mormon like an idol. In the Ten Commandments, Commandment 2 clearly says not to worship idols or put any gods before Him, yet they elevate their book and their man-made prophets to that level.

### **ISLAM (MUSLIMS)**

Marrying kids, stripping women's rights, and allowing men to abuse their wives—that sounds crazy, right? Well, don't worry, it's all in their primary sources and it's allowed. How can that be allowed when the Bible talks about how kids need to be cherished? According to their own trusted Hadith (Sahih al-Bukhari 5134), their prophet Muhammad married Aisha when she was just 6 years old.

Furthermore, their own book contradicts itself. In the Quran (Surah 5:47), it tells Christians to judge by the Gospel (the Holy Bible), saying it is true. But in other parts, it denies exactly what the Gospel says about Jesus dying on the cross. What are they even talking about? If the Gospel is true, Islam is false. If the Gospel is corrupted, why does the Quran tell people to read it?

### **CATHOLICISM**

Catholics—oh man, I basically want to call them Mormons sometimes. Even though they don't believe in a whole separate book, they literally changed the Ten Commandments. They removed the second commandment (about not worshipping graven images) and split the tenth one in half just to keep the number at ten, all so they could keep praying to statues. They also have their own Bible version with extra books added in. When I look at the ancient Dead Sea Scrolls compared to the KJV Bible, the verses line up perfectly and prove it's accurate. But when you look at the Catholic Bible, things are changed or added to support their own traditions.

### **SATANISM**

Satanism isn't just about worshipping a red guy with horns it's a pyramid of predators. Anton LaVey wrote the Satanic Bible in 1969, and basically, every "Satanic Statement" in it is just a direct, edgy inversion of Jesus' teachings. Jesus said to turn the other cheek; Satanism says to get vengeance. It promotes a system where the strong eat the weak, but ultimately, it just leaves you completely isolated. If you are your own god, you're all alone.

They're not serving Jesus. They're serving themselves. And the proof is right there for anyone brave enough to look.
